PROJECTS

Calculator   https://64ce779d74696f5c9b4ba1fa--starlit-florentine-d427be.netlify.app/

1. Developed an online calculator utilizing HTML, CSS, and JavaScript to perform fundamental arithmetic operations (addition, subtraction, multiplication, and division) with precision and ease of use.

2. Implemented an intuitive user interface and error-handling mechanisms to ensure a seamless user experience and accurate results, even in edge cases like division by zero.

Weather App   https://dreamy-shortbread-abb705.netlify.app/

1.Designed and created a dynamic weather application employing HTML, CSS, and JavaScript, enabling users to instantly access real-time weather information such as current conditions, humidity levels, and wind speed for any location worldwide.

2.Integrated an intuitive user interface that ensures a smooth and informative experience.

CERTIFICATIONS

- Full Stack Web Development Using HTML , CSS and JavaScript
- Programming Fundamentals with JavaScript , HTML and CSS (https://www.coursera.org/account/accomplishments/certificate/PWYWDYK3HQ8A)
